Core Skills

- Soft Skills | Great Team Worker , Cross functional Collaboration, Problem Solving, Communication

Technical Skills

- Programming Languages | Java, SQL, Python, Dart, Ruby, JavaScript, HTML Technologies | Linux, Visual Studio, Flutter, React

Key Skills

- Data analytics & machine learning
- IoT integration (sensors, APIs, cloud platforms)
- System design & troubleshooting
- Cybersecurity awareness (ISO 27001 compliance)

profile

I am seeking an opportunity within a reputable organization where I can effectively apply my skills and knowledge to contribute to organizational success while achieving professional excellence. I am a highly motivated and dedicated individual with a strong commitment to quality and continuous improvement. As a fast learner, I am willing to take on challenges, work diligently, and adapt to new environments. I am eager to further develop my abilities, gain valuable experience, and grow both personally and professionally.

Education

- **BSc in Computer Science** Jun 2024-Present
Edith cowan university Sri lanka
Pursuing a Bachelor's degree in Computer Science. Currently in the Second Year First Semester
- **University Foundation of Science (Computing/IT)**
Australian College of Business and Technology/ Edith Cowan College Jan 2023 - May 2024
Pursuing a foundation in Science (Computing/IT) with a focus on introductory Computing Information Design, Project Management, Workplace Communication & Employability, introductory Programming, English Language Enhancement, Information Design and Project Management
- **Course in English Language** Jan 2024 - Apr 2024
Institute of Human Resource Advancement(University of Colombo)
Enhanced communication skills, particularly in speaking and interpersonal interactions.

Projects

- **MYQUOTE WEB APPLICATION** Sep 2025- Oct 2025
Developed a full-stack MyQuote web application using Ruby on Rails, featuring user account management, quote creation, categorisation, and public/private visibility controls.
Contribution: implemented the complete system, including user authentication, admin controls, and quote management functionalities, ensuring secure, efficient, and scalable application performance.
Technologies: Ruby on Rails, SQLite, JavaScript, HTML, CSS
- **TIC-TAC-TOE FLUTTER APPLICATION** Sep 2025- Oct 2025
Developed a Tic-Tac-Toe mobile application using Flutter, featuring a simple user interface, tap controls, and game result detection (win/loss/draw).
Contribution: Implemented the complete game logic, including player moves, turn handling, result checking, difficulty level selection (Easy, Medium, Hard), and basic game history tracking.
Technologies: Flutter (Dart), Android Studio
- **NULLDLE WORD GAME (FLUTTER APPLICATION)** Oct 2025- Nov 2025
Developed a Wordle-style mobile game using Flutter, where users guess a five-letter word with limited attempts and receive colour-based feedback.
Contribution: Implemented and refactored the application using MVVM architecture, separating UI, logic, and state management. Fixed bugs, improved stability, and added features such as live game statistics, custom keyboard with input controls, and enhanced user interaction.
Technologies: Flutter (Dart), Android Studio

● AI-POWERED MULTILINGUAL LEARNING MANAGEMENT SYSTEM Mar2026- Present

Developed a web-based multilingual learning platform for Grade 5 students, supporting Sinhala, Tamil, and English, with interactive quizzes and AI-assisted evaluation.

Contribution: Led front-end development using React, building user interfaces for students, parents, and admin dashboards. Contributed to back-end development, including API integration and AI-based features such as quiz evaluation and voice-related functionality.

Technologies: React, Node.js, Python, Tailwind CSS, PostgreSQL,

Extra-Curricular Act.

- Member of Senior Army Cadet team, St.john's College Nugegoda
- Member of Senior Volleyball, St.john's College Nugegoda
- Member of ASTAC, ACBT University
